FLIP THE SWITCH
We manage the infrastructure so your people can focus on the mission.

TURNKEY SOLUTIONS
Our "as-a-Service" model gives you cost-certainty. We will ensure your infrastructure performs up to the needs of your team, and that it is always ready to meet current and future requirements to ensure mission success.

SOFTWARE
NTS will procure, manage, and maintain necessary licenses. If you already have licenses, we offer the ability to continue using them.

EXPERTISE
Our experts are available to walk with you through each step of the process to ensure that your organization is getting the most out of its resources.

SUPPORT
We take the responsibility of supporting vital infrastructure seriously. Our clients have access to rapid response technical support, and rapid tier escalation when time is of the essence.

THE NTS ADVANTAGE
Why NTS? We have the best smart people. Our experts have centuries of specialized experience in solving the most difficult of uniquely DoD-centric technical problems. Satisfied clients include a number of DoD organizations and agencies you know well… and a few others that are less well-known.

WHY SPLUNK?
Splunk is an industry leading software platform to search, analyze and visualize the machine-generated data gathered from the websites, applications, sensors, devices etc. which make up your IT infrastructure and Command. Partnering with Splunk means turning data into answers and doing that in a modern platform, whether that is on-premises, the Cloud or as a fully Managed Service.

WE DO IT ALL FOR THE CUSTOMER
We deliver a turnkey cloud-based data analytics platform with fully managed infrastructure, in a secure IL6 AWS environment. The customer needs only to point their data to the environment. They can then immediately begin performing analytics.
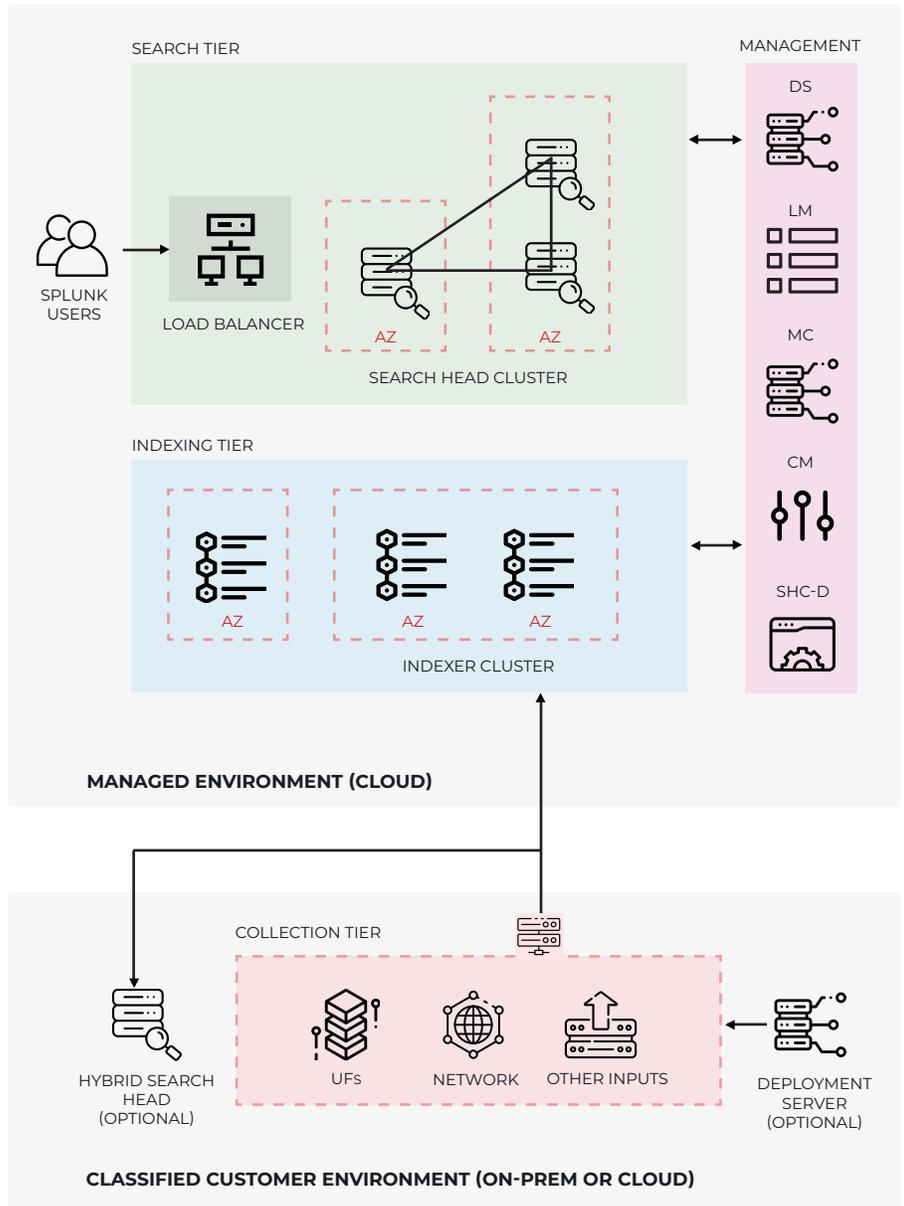

FLEXIBILITY TO FOCUS ON THE MISSION
We provide the flexibility to scale services as needed so your analytics environment can grow with you. We ensure updates happen seamlessly, so customers always have the latest features without worrying about downtime.

CUSTOMIZED TO SUIT YOUR NEEDS
We understand that every organization is unique. We offer options such as collection points on premises and policy servicer to get your data to the secure environment as needed.
